

So many winners at the Oasis and more to come, including more fun events come down for a look!

Last month was a busy time at the Oasis Centre and there is more to come for the summer! You can see below how popular our **Environmental day** was, with over 300 hundred people attending the event, enjoying the stalls and activities. **Steve Barclay** opened the event and other visitors included the Wisbech Mayor. There were also competitions on the day and pictured starting left to the right are our lucky winners! The next event held in the Oasis was a Well being day organised by various Wisbech based organisations which gave advise and information about healthy living.

(Pictured on the left is **Elouise** who won the **Environment day** Ballon race and received and cuddly bear funded by **Roddens**. Our other winner was **Eric Freeman** who unfortunately couldn't come to the Oasis to have his picture taken. However we sent him his prize through the post!)

(Pictured on the right is **Connor** aged five holding his winning picture. Who along with **April** age eight on the left also holding her winning picture with her dad, won the Environment Day colouring competition.

The prizes were kindly donated by **Next Steps of Wisbech**.

(Pictured on the right is **Katie Price** along with her family, who won a cute Cat donated by the **Oasis Centre** for her prize winning Flower, which she grew by herself)

Oasis Nursery get healthy!

The Children have been participating in the 'Tots and Pops' program funded by Cambs. Acre. This has involved planting and growing, caring and harvesting vegetables at the nursery. This was a 7 week program but the nursery staff plan to continue growing food and plants with the children as part of the outcome of being Healthy, enjoying and achieving.

Little Angels photographic company visited the nursery during May to take individual and class photographs for families to purchase.

Pre-school children have a planned trip on 8th July to visit Woodhouse Farm Park. This will be a fun and educational trip and an ideal opportunity for parents and carers to be involved in their child's learning and to build parent partnership.
